

Theory of change

Our mission

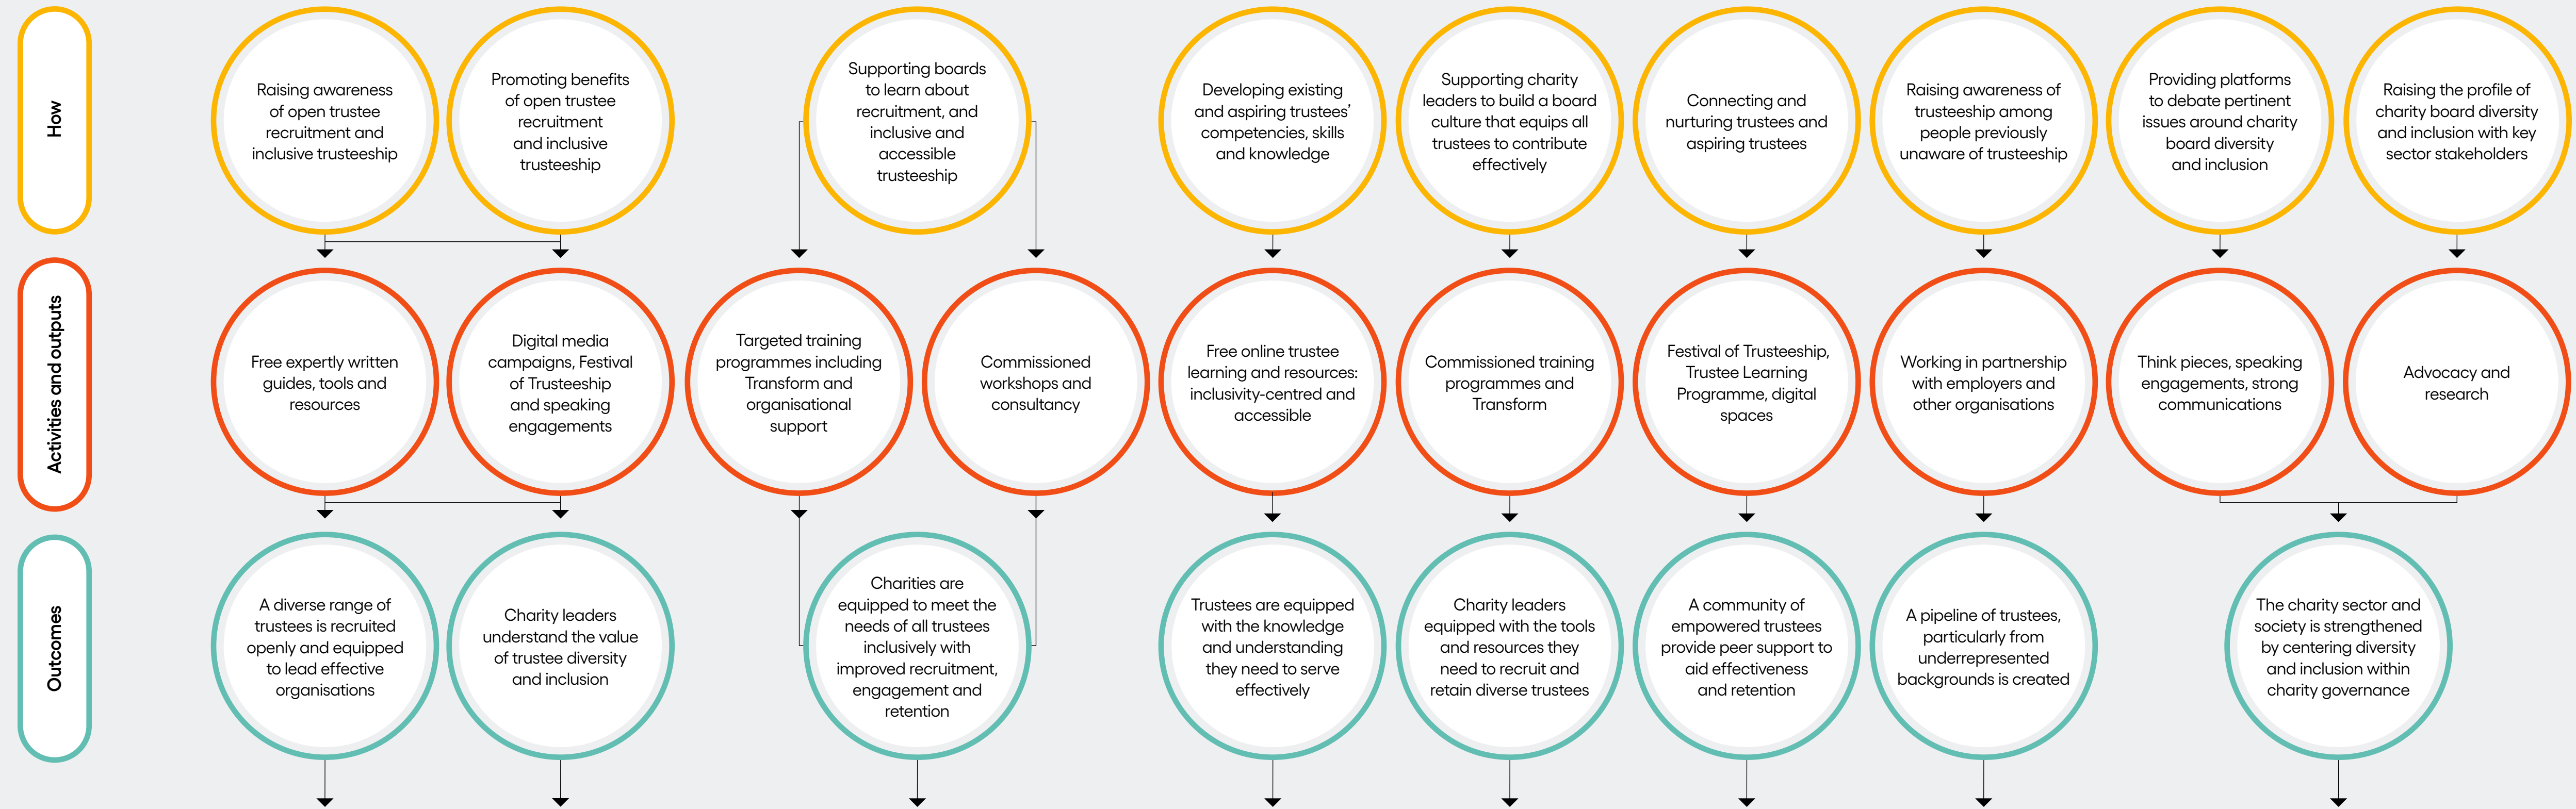

Changing the face of trusteeship, by making trusteeship more accessible and by supporting trustees to be effective.

Our purpose

We exist to make trusteeship more accessible, effective and inclusive by raising awareness of trusteeship, particularly within under-represented communities, and by helping trustees to have impact.

Our vision

A thriving charity sector that is equipped by diverse trustees to meet current and future challenges, and that delivers the best support and representation to all communities.

Our impact

We introduce thousands of people to trusteeship, we support and empower thousands of people to serve as effective trustees and we help thousands of charities to recruit trustees inclusively.
